Solar panel companies in the Solomon Islands

Overview

List of Solomon Island solar panel installers - showing companies in Solomon Islands that undertake solar panel installation, including rooftop and standalone solar systems.

List of Solomon Island solar panel installers - showing companies in Solomon Islands that undertake solar panel installation, including rooftop and standalone solar systems.

We design our solar systems for Solomon Island's hot temperatures and remote, rural conditions. We only use lithium batteries; quality components from manufacturers like Deye and Victron Energy, and we ensure that we 'oversize' the amount of solar power to keep batteries fully charged.

Solomon Power also supports the installation of small scale grid connected micro embedded generators that convert renewable energy into electricity that can be used in your home or business premises. Sources of renewable energy can include solar photovoltaic cells (PV) or micro-turbine systems.

Solar Power Solutions Pvt Ltd is the premier solar company in Solomon Islands. With our expertise and commitment to excellence, we have earned a reputation as one of the best solar EPC companies in the Solomon Islands.

We specialise in custom-designed solar power solutions for food trucks, street vendors, and container houses. Our systems are tailored to meet your unique needs, providing reliable and eco-friendly power wherever you need it.
