Southern Energy Storage Power Station

Overview

Who is CSG energy storage?

As the first to build a megawatt-level lithium battery energy storage station in China, CSG Energy Storage currently manages nine electrochemical energy storage stations, and has accumulated industry-leading experience in integrated solar-storage-charging stations, reutilization of power batteries, and other areas of vehicle-grid interaction.

Who signed CSG energy storage agreement?

Witnessed by Liu Guogang, Chairman and Party Secretary of China Southern Power Grid Energy Storage Co., Ltd. ("CSG Energy Storage"), and William Li, Founder, Chairman and CEO of NIO, Wang Zhiqiang, Chairman of CSG Energy Storage Technology, and Shen Fei, Senior Vice President of NIO, signed the agreement.

What is a power swap station?

NIO's Power Swap Stations are the first intelligent microgrid distributed battery swapping system in China, capable of participating in effective grid regulation through order forecast and real-time assessment of charging loads.
