Hi, I have a Back-UPS CS 350 and I'm looking to replace the battery. By default it comes with a 12v 7Ah battery, but I want to put a larger capacity battery inside. I've been looking at a 18Ah or 21Ah. My apologies if this has already been discussed, I searched the forums and couldn't find.

The UPS charges specific battery sizes and manages their performance. Larger batteries may harm the UPS and raise safety risks, such as fire. Always follow the manufacturer's specifications for battery compatibility and warranty to ensure safety and optimal battery life. Before considering an.

ight runtime for customers' needs. With a narrow footprint at only 19.7" wide, the cabinet can be configured or 1, 2 or 3 strings to add runtime. This cabinet is only offered at 432V DC, so can only ne large string of batteries inside. This welded cabinet offers flexibility in adding runtime with.

Any of you guys ever deal with large UPS battery cabinets. I beleive the battery don't come installed in them. WOuld be very heavy. Is that correct?

What type of wiring is involved with them. I'm just curious. I'm surely not "figuring" anything for that type of scope. Thanks. I have installed them.
