

A-Core Container

The largest battery cabinet in Russia

Voltage range

636V-876V

Rated voltage

768V

Cell type

Lithium iron phosphate

Overview

Due to the growing awareness of climate change and the need for clean energy, Russian government encourages the development of the battery industry. In this article, we will learn about the top 10 battery manufacturers in Russia along with their innovations as well as contributions to the industry.

In this article, we will learn about the top 10 battery manufacturers in Russia along with their innovations as well as contributions to the industry.

In this article, we will learn about the top 10 battery manufacturers in Russia along with their innovations as well as contributions to the industry. Last Updated on May 14, 2025 Russia is a country that not only well known because of the abundant gas and oil reserves, but it also home to a range.

The world's largest lithium-ion battery plant, a joint venture between the Chinese lithium battery manufacturer Thunder Sky Group and Russian state run agency RUSNANO, was recently opened in Novosibirsk, Russia. The facility, referred to as Liotech, is expected to produce up to 500,000 lithium.

One of the examples became the “Elektrokomponenty” LLC, which opened one of the largest traction battery warehouses in the region. It's located at Aviacionnaya Street 15 in Pushkino town. There are traction batteries for forklifts, reach trucks, stackers, electric pallet trucks, and other warehouse.

Nuclear technology company Rosatom, Russia's biggest electricity provider and the country's supplier of nuclear fuel for power plants, has opened an energy storage business unit based around lithium-ion batteries. The state corporation – State Atomic Energy Corporation Rosatom to give it its full.

MKC Group of Companies is an official partner in energy storage devices built on CATL battery systems — a world leader in the production of lithium energy sources for electric transport and energy. In 2021, MKC Group of Companies signed an agreement on the exclusive distribution of products in.

Russian energy giant said its gigafactory will be located in Russia's western exclave of Kaliningrad. The facility is expected to begin manufacturing activities in 2026. The batteries are based on lithium-ion technology from Korean manufacturer Enertech International. Image: Rosatom Russian.
