Togo Energy Plans solar Energy Storage

Overview

Togo has begun construction on a 25 MW solar plant with 36 MWh of battery storage in the country's north. China's TBEA International Engineering is leading the project, which is scheduled for completion within 13 months. An installation ceremony for the project took place last.

(Togo First) - Togo is preparing to launch an ambitious 400-megawatt (MW) solar energy development project as part of its strategy to achieve universal access to electricity by 2030. Last week, a technical workshop was held in Lomé to design the competitive process for the project's implementation.

Togo is preparing to launch a pilot program for green energy storage following an agreement signed by the French Development Agency and the Global Energy Alliance for People and Planet (GEAPP) to provide 112 million CFA francs (\$200,000) to fund feasibility studies. This announcement was made.

Togo has launched a new solar mini-grid initiative to accelerate rural electrification, part of a national plan to reach universal, affordable power by 2030 through a mix of grid expansion, village mini-grids, and solar home systems. The pilot phase, known locally as Café-Lumière, begins in six. Will Togo build a 25MW solar power plant?

Togo has announced plans to construct a 25MW solar power plant. The Regional Urgent Intervention Project in the Solar Energy Sector (RESPITE) made the announcement and said the move aims in enhancing access to clean and sustainable energy in the country.

What is the energy sector like in Togo?

The energy sector in Togo is primarily thermal, with most of its generation capacity coming from this source. Togo generates some of its own electricity but imports the majority of its needs from Nigeria and Ghana.

What is the scope of Donsin solar power plant project?

The project's scope, includes the design, supply, and installation of a 25 MWp solar power plant backed by a 40 MWh battery storage system in Dapaong in northern Togo. The project is the subject of an international call for tenders which closes on 4 June 2024. [READ: Burkina Faso receives US \\$48M boost for Donsin solar power plant project](#)
