Washington | October 17, 2025 — Agence Française de Développement (AFD) and the Global Energy Alliance for People and Planet have signed a USD 200,000 contribution agreement. This agreement will finance feasibility studies for a battery energy storage system (BESS) project in Togo - a crucial step.

The French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP) will support a 55 MW battery pilot project which could be replicated across the continent. The AFD and GEAPP have committed \$200,000 to support a battery storage project in Togo. The announcement was.

Energy/ Togo embraces battery storage to stabilize grid and boost. As Togo intensifies its efforts to diversify its energy mix and strengthen the role of renewables in its electrical system, the authorities are now opening a new chapter: battery storage. This technological solution, still.

Togo is taking a significant leap forward in its energy transition by launching a 55 MW pilot project for battery storage. This ambitious initiative, backed by a €25 million loan from the French Development Agency (AFD) and the Global Energy Alliance for People and Planet (GEAPP), is set to.

(Togo First) - Togo is set to pilot a green energy storage program after the French Development Agency and the Global Energy Alliance for People and Planet (GEAPP) signed an agreement for 112 million CFA francs (\$200,000) to

finance feasibility studies. The announcement was made on the sidelines of.
