Togo solar Energy Storage Power Station

Overview

The Adétikopé Solar Power Station is a planned 390 MW (520,000 hp) plant in , with 200 MWh (720 GJ), attached battery energy storage. The power station is in the development stage, under concessional terms by the company Arise Integrated Industrial Platforms (Arise IIP), a subsidiary of the (AFC), in partnership with the Government of Togo. As of July 2021 a qualified EPC company was being sought to construct the power station, eithe.

Where is the largest solar power plant in Togo?

The solar power plant is located in Blitta, a division in the Central Region. With a capacity of 50 MWp, the Mohamed Bin Zayed plant becomes the largest utility-scale solar park in Togo, and indeed in the West African sub-region. The new facility, which supplies clean energy to Togo's national grid, increases the country's energy autonomy.

Will Togo build a 25MW solar power plant?

Togo has announced plans to construct a 25MW solar power plant. The Regional Urgent Intervention Project in the Solar Energy Sector (RESPITE) made the announcement and said the move aims in enhancing access to clean and sustainable energy in the country.

What is the scope of Donsin solar power plant project?

The project's scope, includes the design, supply, and installation of a 25 MWp solar power plant backed by a 40 MWh battery storage system in Dapaong in northern Togo. The project is the subject of an international call for tenders which closes on 4 June 2024. READ: Burkina Faso receives US \$48M boost for Donsin solar power plant project
