Tuvalu Smart Energy Storage System

Overview

Renewable energy in Tuvalu is a growing sector of the country's energy supply. has committed to sourcing 100% of its from . This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location. It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Str.

This project includes a 500 kilowatt on-grid solar rooftop array and a 2 megawatt-hour battery energy storage system (BESS), catering to Tuvalu's capital with sustainable and reliable electricity.
