# UAE Energy Group Energy Storage Project

## Overview

---

Located in Abu Dhabi and slated for completion in 2027, the project will integrate a 5.2-GW solar PV plant with a 19-GWh battery energy storage system (BESS) to deliver 1 GW of baseload renewable energy around the clock, avoiding an estimated 5.7 million tonnes per year of.

Located in Abu Dhabi and slated for completion in 2027, the project will integrate a 5.2-GW solar PV plant with a 19-GWh battery energy storage system (BESS) to deliver 1 GW of baseload renewable energy around the clock, avoiding an estimated 5.7 million tonnes per year of.

ABU DHABI, October 27, 2025 – Masdar and Emirates Water and Electricity Company (EWEC) have broken ground on the world's largest combined solar and battery storage project, the companies announced on Friday. Located in Abu Dhabi and slated for completion in 2027, the project will integrate a 5.2-GW.

Abu Dhabi Future Energy Co. (Masdar) and Emirates Water and Electricity Co. (EWEC) have started building a solar-plus-storage project in Abu Dhabi that will deliver 1 GW of continuous baseload energy from a 5.2 GW solar plant paired with a 19 GWh battery system. Masdar and EWEC have begun.

Masdar, in partnership with EWEC, is reimagining the potential of renewable energy, producing gigascale baseload power at a globally competitive tariff for the first time. Combining a 5.2 gigawatt solar photovoltaic (PV) facility with a 19 gigawatt-hour (GWh) battery energy storage system, the.

Abu Dhabi takes a global lead with a groundbreaking initiative in renewable energy storage and provision. In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has inaugurated the.

The UAE breaks ground on the world's largest solar and bess project, first of its kind. Moreover, it will be capable of delivering round-the-clock baseload renewable energy. Masdar in collaboration with EWEC (Emirates Water and Electricity Company) is developing the \$6 billion project. Moreover, it.

The United Arab Emirates has broken ground on a solar+storage project in Abu Dhabi that will be capable of delivering 1 GW of continuous baseload power. Developed by Masdar and the Emirates Water and Electricity Company (EWEC), the project will combine a 5.2 GW solar PV plant with a 19 GWh battery.
