UK energy storage major investment projects

Overview

NatPower UK announces investment of over £10 billion to build 12.5GW battery energy storage systems, including the UK's largest 1GW Teesside storage park. Ten projects submitted to Ofgem's long-duration storage assessment to support Britain's grid decarbonization.

NatPower UK announces investment of over £10 billion to build 12.5GW battery energy storage systems, including the UK's largest 1GW Teesside storage park. Ten projects submitted to Ofgem's long-duration storage assessment to support Britain's grid decarbonization.

NatPower UK has announced plans to invest more than £10 billion in delivering a large-scale portfolio of battery energy storage and grid projects across the United Kingdom, marking a major investment in the country's energy infrastructure sector. The company is currently developing 13 battery.

The UK's battery storage sector is charging ahead at an incredible pace. Since 2020, operational capacity has increased by 509%, climbing from 1,128 MW to 6,872 MW in 2025. So far this year, more than 1,405 MW of new capacity has been commissioned, already beating the total for 2024 and putting the.

A new era for renewable power and energy security begins today (Tuesday 8 April) as Ofgem launches a new cap and floor investment support scheme, unlocking billions in funding to build major Long Duration Electricity Storage projects for the first time in 40 years. Long Duration Electricity Storage.

Two leading UK-based energy firms, AMP Clean Energy and Pulse Clean Energy, have announced major investment milestones in August 2025, securing a combined total of over £495 million to expand their Battery Energy Storage System (BESS) operations across the country. These investments signal growing.

NatPower UK, a subsidiary of the NatPower Group, has unveiled plans to invest £10 billion (US\$12.8 billion) in the UK battery energy storage sector by 2040. This massive investment aims to bring online over 60GWh of capacity, marking a significant step towards a cleaner and more sustainable energy.

Zenobe Energy is the largest independent owner and operator of battery storage in the UK. It buys and manages grid-scale batteries for its commercial customers, such as utilities and electric-vehicle operators. Highview Power's CRYOBattery delivers, clean, reliable, and cost-efficient long-duration.
