

## A-Core Container

# Vietnam's second batch of energy storage projects

## Overview

---

The revised PDP8, approved in early 2025, now includes a groundbreaking BESS target of 10,000MW to 16,300MW by 2030. This monumental increase, from just 300MW to at least 10GW, is the first time Vietnam has set a serious, actionable goal for energy storage.
