It is the largest provider of telecommunication services in Guyana with a subscriber base exceeding 300,000 in a country with a population of about 700,000. Its parent company is the Atlantic Tele-Network.

What is Telecommunications in Guyana?

Telecommunications in Guyana include radio, television, fixed and mobile telephones, and the Internet. Early telecommunications were owned by large foreign firms until the industry was nationalized in the 1970s.

Does Digicel Guyana have a competitive mobile market?

The mobile market has been open to competition since 2001, but only one operator, Digicel Guyana, has successfully launched competing GSM and 3G services. While Digicel quickly built a small lead in the mobile market, it remains a duopoly, and penetration levels are well below those of other countries in the region.

What happened to Guyana telecom monopoly?

The end of the 31-year monopoly held by the fixed-line incumbent Guyana Telephone and Telegraph (GTT) occurred just two months after the PPP took power from the APNU+AFC coalition, which had signed a non-binding agreement with GTT in 2019 to liberalise Guyana's telecoms market but failed to take any concrete action to make it happen.

What are the three major ISPs in Guyana?

The three major ISPs in Guyana were GTT, Digicel and E-Networks. In 2021, the government made licensing exemptions for small ISPs, to encourage private-sector telecommunications development.
