The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new facility, with a capability of 124.1 MW and 496.4 MWh in capacity, is the biggest in the European Union. It is located in the local.

Over the past five years, Sofia has emerged as a hotspot for battery energy storage solutions (BESS). With renewable energy projects expanding rapidly, the demand for reliable storage systems has skyrocketed. In 2023 alone, the city's BESS market grew by 28%, reaching a valuation of \$1.52 billion.

June 9 (SeeNews) - Bulgarian power systems manufacturer International Power Supply (IPS) said it broke ground on its second Battery Energy Storage System (BESS) production facility in the capital Sofia. Located in the Hemus High-Tech Industrial Park, the new plant will expand IPS's overall annual.

On June 2, it was reported that International Power Supply (IPS) is set to begin operations at its new battery energy storage systems (BESS) manufacturing facility near Sofia, Bulgaria. The factory will initially produce up to 8.2 MWh BESS units and aims to expand its annual production capacity to.

Bulgaria has taken a major step forward in its renewable energy strategy with the inauguration of a 124 MW / 496.2 MWh battery energy storage system (BESS) in the north-central city of Lovech. Described by the Ministry of Energy as the largest operational battery storage facility in the European.

The manufacturing of the fully-integrated battery energy storage system (BESS) – Exeron (X-BESS) by Bulgaria-based International Power Supply (IPS) was on Tuesday officially awarded a strategic project status under the Net-Zero Industry Act Regulation (EU), which aims to boost the production.
