Zambia s new solar panel manufacturer

Overview

Century Solar Africa receives 204 hectares for a new solar project in Serenje, Zambia. The \$122M project will add 100 MW to the grid and create 900 jobs.

Century Solar Africa receives 204 hectares for a new solar project in Serenje, Zambia. The \$122M project will add 100 MW to the grid and create 900 jobs.

The newly \$100 million Chisamba solar plant in Zambia is set to offer stable power supply for the country's mining operations. The project, built by the Chinese state-run energy giant PowerChina and financed by Zambia's national utility ZESCO will supply power to First Quantum Minerals, a company.

Zambia has reached a landmark milestone in its energy transition with the financial close of the 100MW Chisamba Solar PV Project, the largest grid-connected solar development in the country's history. The plant is now also commissioned. The project, developed by Kariba North Bank Extension Power.

Century Solar Africa has received 204 hectares of land from Chief Mailo in Serenje District for a solar power project designed to help address Zambia's energy needs, diversify its power sources, and create employment opportunities. Zambia is making significant strides toward a sustainable future.
